

# Link2Feed®

## What is Link2Feed?

Link2Feed is an electronic database that allows us to safely and privately collect data to better understand the needs in our communities.

## What will I be asked to share?

Basic information about yourself and your household.

## Is this optional?

- For federal programs like CSFP, SNAP, and TEFAP, certain questions are required to qualify for services.
- Most of the other information and questions are optional and you will not be denied services if you choose not to answer.

## Who can see my information?

**ReNewed Hope Food Pantry  
Harvesters-The Community Food Network  
other Harvesters agencies you may visit**

- No individual/personal information will be shared with the government or any outside parties except when required by law or where required for federal programs you participate in.
- All staff and volunteers have signed confidentiality agreements.
- All reporting is *ANONYMOUS*.

## Will this limit my services?

Information gathered will **not** be used to limit services at this or any other pantry. Agencies can refer you to other services in your area if needed.

## How will my information help?

### Increase efficiency

You will only need to set up your profile once. Then, you can access your profile at any agency using Link2Feed.

### Advocate

Link2Feed's up-to-the-minute reporting will allow us to advocate for the needs of our communities directly to those who can help us with funding, and will help us make timely decisions about where and when to send extra resources.

### Help your community

The better information we have, the better services we can provide.

### Get connected

We believe that we are stronger together. Getting connected through Link2Feed will help our network better share resources, provide you with more information and referrals, reduce wasted food, and find areas and people who need more assistance and help them get what they need!
